
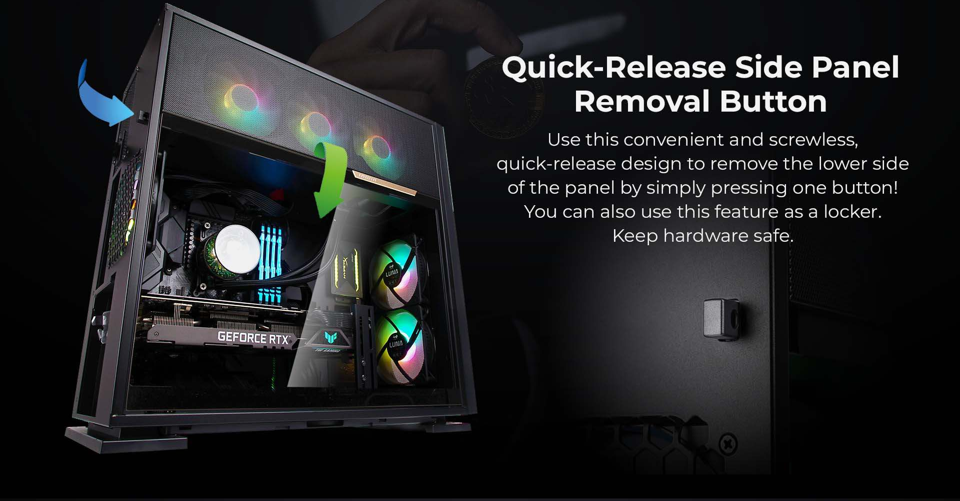
515

Mid Tower

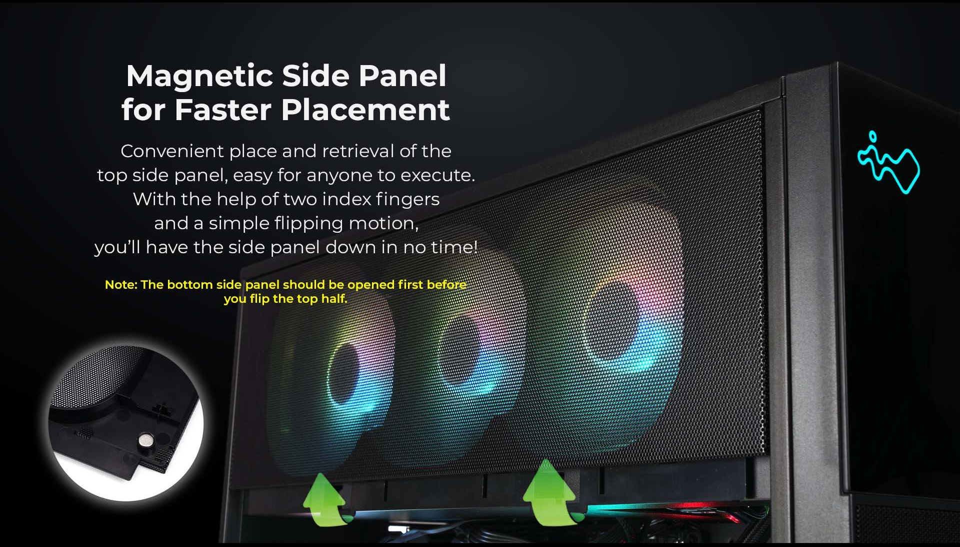
Minimalistic Materials

The 515 features a crisscrossed combination of 1.2 mm thick steel and tempered glass, with a functional mesh design. Complemented with a neatly cut InWin aluminium logo to add a touch of character to your system.



Quick-Release Side Panel Removal Button

Use this convenient and screwless, quick-release design to remove the lower side of the panel by simply pressing one button! You can also use this feature as a locker. Keep hardware safe.



Magnetic Side Panel for Faster Placement

Convenient place and retrieval of the top side panel, easy for anyone to execute. With the help of two index fingers and a simple flipping motion, you'll have the side panel down in no time!

Note: The bottom side panel should be opened first before you flip the top half.

Versatile GPU Anti-Sag Support

InWin has found a solution and developed a versatile graphics card holder design to keep your GPU from sagging and protect your system!

Side Panels and Mesh Designs

The tinted window side panel offers an inner chassis view to showcase your components. A side mesh panel is provided so that considerable air flows into the system.
