

Lock-Chain Combination Iven Chain 8210

Art. no. 55152

Page 1 of 1

Technology

- 8 mm strong square chain with functional, long-life and highly-flexible mesh sleeve to prevent damage to the bicycle's paintwork
- The chain, the case as well as supporting elements of the locking mechanism are made of special hardened steel
- Premium cylinder for high protection against manipulations, e.g. picking
- Ergonomic lock body cover with softcase technology, which offers a very high impact resistance
- Two keys are supplied with the lock

Operation and use

- Good protection at medium theft risk
- Recommended for securing good bicycles
- The longer the chain, the easier the bicycle can be locked to a fixed object

Transport

- For protected transport, the frame bags ST 2200 and ST 2250 are recommended (for 85 cm length)
- Convenient compact transport by wrapping the chain around the seat post (for 85 cm length)

Tips

- Very handy use because only one end of the chain must be locked
