Bosch 2 608 661 641 multifunction tool attachment Saw blade:

When cutting non-hardened metals and abrasive materials, the BIM (bi-metal) combination of an HCS (high carbon steel) blade and HSS (high-speed steel) teeth resists wear and heat, ensuring a longer life for the blade. The Starlock Snap-In mounting system allows fast blade removal and exchange within 3 seconds without having to touch the blade. The mounting system produces the highest power transfer thanks to a 3-dimensional tight-fitting connection between machine and accessory.
